

Basic Dental Screening

Dear Parent or Guardian,

Today, your child received a basic dental screening from a Registered Dental Hygienist. Listed below are the results of that screening. Dental screenings only find obvious dental problems. No X-rays were taken and this screening does not replace a thorough dental examination by a dentist.

Below are the results of the screening and recommendations:

_____ Your child has some dental problems which appear to need **immediate** care. Contact a dentist as soon as possible for a complete examination.

_____ Your child appears to have dental problems which need to be evaluated by a dentist. Your dentist will decide what treatment, if any, is needed. Please make an appointment in the next two weeks.

_____ Your child has no obvious dental problems. See your dentist on a routine basis, every 6 months.

Date: _____
